Ms. Lillian Johnson
U.S. Environmental Protection Agency
26 Federal Plaza
New York, NY 10278

Dear Ms. Johnson:

As we discussed this afternoon, I am enclosing a copy of the materials which will be disseminated to residents of the Millington community on behalf of the National Gypsum Company.

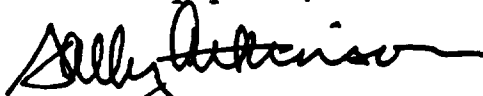

As you know, the community leaders and several other interested parties were briefed on the project last January. This group has been notified of the upcoming testing dates and procedures.

Additionally, we have maintained regular contact with the local media to notify them of details as the project has progressed.

It is our intention to staff the site during the initial testing phase to handle any public inquiries.

I'll phone you tomorrow to discuss possible ways we can coordinate our community relations efforts. I look forward to working with you.

Sincerely yours,

Sally Atkinson
